To the Honorable, the City Council of the
City of Cambridge:

CAMBRIDGE, MASS.

The undersigned respectfully pray

Nutting Road is constantly congested with construction equipment during the working hours of 6:30 AM — 4:30 PM Weekdays. This situation denies us the privilege of ~~of~~ our driveway — not only for us but for our tenants —

We are requesting the right to park our cars at least 4 in number. This is the amount of cars we park in our driveway presently. — (ON MT AUBURN STREET next to our house)

My mother is 86 years old and has been rushed to the Mount Auburn Hospital on numerous occasions and this also is detrimental to my mother's wellbeing as the ambulance would be detained unnecessarily.

We hope this parking on Mt Auburn Street next to our house will not go on for more than a year but the construction we heard should all be 'over by this time hopefully.
