To The Honorable City Council of

The City of Cambridge.

The undersigned by vote of the directors of
the Harvard Square Business Men's Association respectfully
demonstrates against the proposal to build a head-quarters for
the fire department upon the site now occupied by the
present engine house in Inman Square. They believe the erection
of such a building would seriously retard the business
development of that locality and in this way be a loss to
the city. They feel that the present site ought to be devoted
to business purposes and that the proposed building should
be erected upon land with less probability of increase in value.

Respectfully,

George G. Wright
President.
