Cambridge City Councils
City Hall
Cambridge, Ma

Gentlemen:

Can you tell me whose idea it was to install those musical pipes in front of City Hall? It looks like something Jimmy Carter would propose, and I have just written to him stating that he should be tried for treason.

If you have all that money to throw away what is the idea of raising the taxes \$50.00 on \$1,000?. We need benches for the elderly to rest upon. There were seats there and you took them away.

I would like an explanation for this insipid construction.

Veru truly yours

Hazel M. Adelman
