Subject City Council Hearing re: Dilapidated Buildings and Board of Survey.

Under the present Commonwealth of Massachusetts Building Code, Article I, Sections 124 and 125, the Board of Survey is composed of the City Engineer, the Head of the Fire Department and one disinterested person appointed by the Building Official.

After being notified of certain hazardous building conditions by the Building Official, the Board of Survey inspects and then reports to the Building Official. This report of the Board of Survey gives authority to the Building Official to make certain decisions among which may be the demolition of said building.

If requested, I will be available for appearance before the City Council. My home telephone number is 354-1060. If not there, please call the Fire Alarm office, 876-0125. They can reach me by radio as I am always available and will be in the City Monday night.
