Office of the City Clerk
City Hall
Cambridge, Massachusetts 02139

Gentlemen:

We very much appreciate receipt of the transcripts of the hearings on recombinant DNA experimentation held on June 23rd and July 7th, 1976. These hearings were a landmark in University - community relations with respect to biological research, and the transcript provides us with useful detail not available otherwise. Many aspects of recombinant DNA research require public as well as technical discussion and making the transcripts of the hearing available is a useful service.

We would appreciate receiving other documents on this subject as they become available. Again, our thanks.

Sincerely yours,

Herman W. Lewis
Coordinator of Recombinant DNA Activity

Comm. from Herman W. Lewis, Coordinator of Recombinant DNA Activity, National Science Foundation, Washington, D.C., expressing his appreciation for the transcripts of the hearings on recombinant DNA experimentation which were sent to him.

In City Council,

December 27, 1976
