E. H. Reed, Esq., Supt of Streets ^{petitioned}

Dear Sir: I recently ~~petitioned~~

The Mayor and Aldermen for brick sidewalk and edge stone fronting my land corner of Cedar and Rice streets, and I desire to make an offer in relation thereto. As you are aware the lines of Cedar and Rice streets form at their junction an acute angle, and it is needless for me to say anything about the inconvenience attending travel between such streets. I have just completed a building on the corner of Cedar and Rice streets, and I have built on the street line with the exception that I have kept back thirteen feet on the line of each street from the point of junction leaving a triangle piece of land between my building and the point of junction containing about eighty five square feet. I propose to release this land to the city when, instead of the sharp point as at present, the line of sidewalk can be set back thirteen feet making a nicely rounded turn. I am by no means a rich man, however, and if the city should feel like compensating me why, well and good, but if the city desires the land the offer is not conditional.

Very respt yours,

Daniel J Hayes

Cambridge, Nov. 21 1892

To the Honorable, the Board of Aldermen,
of the City of Cambridge

The undersigned respectfully pray that curb-stone
and brick sidewalk may be laid on the corner
of Cedar and Rice Streets in front of his new
building, viz:

about 60 feet in Rice Street

In Board of Aldermen, *Dec 27* 1892

Referred to the ~~Committee on~~
next board of Aldermen

Attest: *Walter R. Plin*
City Clerk.

To the City Council of the City of Cambridge:

Respectfully represent the undersigned, residents of North Cambridge, that the street cars on North Avenue going to Harvard Square do not stop on said Avenue to take on passengers until the cars have passed over the cross-walk now on said Avenue and reached a point in the line with the side walk on the easterly side of Russell Street and Cogswell Avenue where there is no cross-walk on said North Avenue; that at said point, after a rain, the mud on said North Avenue is often nearly an inch in depth, and in the winter season the snow and water is often times in such condition and depth as to get in at the top of an ordinary rubber overshoe; that by reason of such condition the public convenience of persons taking the street cars at said point requires that a second cross-walk be constructed on said North Avenue in line with the side walk on the easterly side of Russell Street and Cogswell Avenue; they therefore respectfully ask your honorable body to cause a proper cross-walk to be constructed at said locality.

Cambridge, November 9th, 1892.
