

True order is achieved by Knowledge.

By People possessing and using knowledge.

CAMBRIDGE, MASSACHUSETTS

They cooperate with each other without the
need for being oppressed into cooperation.

Inferior systems of order promote concepts of
superiority / inferiority / weakness /
domination / slavery / slave controller.

Thus you have concepts of royalty (superior /
inferior) tyranny (weakness / strength) ,
caste societies (slave-servants, slave
controllers), fraud free societies
(subservient cowards, master psychological
enforcer controllers).

In truly free societies, members experience
true happiness which comes from knowledge of
the fullness within and the fullness beyond
within. People cooperate in respect of the
laws of Life. They respect each other's
rights and enjoy each other's abilities.

Water is contained by land, land is nourished
by water. What both contain sustain each
personally and nourish each other.

Forced cooperation is based on lack of
knowledge, which is the cause of fear, hate,
anger and diabolical delusions which leads to
elements tormenting one another.

Knowledge brings Power. Power brings True
Freedom.

Truth and Knowledge exist in and of
themselves, they have no authors only
seekers.

Seek and you will find that the truth will
set you free.

All knowledge and worthwhile philosophy can
be encapsulated in one word

meaning

These words are the essence of Love.

There is no greater form of Love for without
these ideas Life has no guiding path to build
upon.

Life without Happiness is death.

Freedom brings happiness and happiness
brings Life.

True order is achieved by Knowledge.

By People possessing and using knowledge.
