Dear Cambridge City Councillor,

I urge the City council to adopt the *Ordinance for the Care and Use of Laboratory Animals in the City of Cambridge.* I support the ordinance because it provides for public review of experiments by a citizen board, inspection of facilities by responsible representatives, and requires at least one animal welfare advocate on animal care committees within institutions. I believe the city must ensure that animals are not mistreated behind closed doors.

Sincerely,

City Council Office
795 Massachusetts Ave.
Cambridge, MA 02139

Dear Cambridge City Councillor,

I urge the City council to adopt the *Ordinance for the Care and Use of Laboratory Animals in the City of Cambridge*. I support the ordinance because it provides for public review of experiments by a citizen board, inspection of facilities by responsible representatives, and requires at least one animal welfare advocate on animal care committees within institutions. I believe the city must ensure that animals are not mistreated behind closed doors.

Sincerely,

Name: Heidi Page

Address: 16 Irving St. Watertown

Dear Councillor Walsh,

Thank you for your support in banning cruel commercial tests! You have made me proud to be a Cambridge resident. Now we need an Ordinance to provide accountability in *all* animal experiments. Please vote for the Ordinance endorsed by the *Cambridge Committee for Responsible Research.* Labs must disclose what they are doing, have a City-appointed animal advocate on their Animal Care Committees, and be inspected regularly. The City must prevent unnecessary painful experiments by requiring Citizen review of procedures *not* using painkillers and anesthesia.

Briany Keith

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

1) freedom of information,

2) inspection of facilities by responsible representatives,

3) an animal welfare advocate on animal care committee,

4) monitoring of painful experiments,

5) ending unnecessary animal experimentation.

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

1) freedom of information,

2) inspection of facilities by responsible representatives,

3) an animal welfare advocate on animal care committee,

4) monitoring of painful experiments,

5) ending unnecessary animal experimentation.

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

1) freedom of information,

2) inspection of facilities by responsible representatives,

3) an animal welfare advocate on animal care committee,

4) monitoring of painful experiments,

5) ending unnecessary animal experimentation.

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

1) freedom of information,
2) inspection of facilities by responsible representatives,
3) an animal welfare advocate on animal care committee,
4) monitoring of painful experiments,
5) ending unnecessary animal experimentation.

Animals love and live with NO Conscious
Humans Kill and Torture with NO Conscious
This is the only difference between the
