Dear Sirs + Madams:

Thank you, Thank you for banning the LD50 + the Draize tests. This is a great step forward for the animals! Now perhaps other cities + townships will have the moral courage to follow your lead + do the same!

Also, please pass the CRR (Cambridge Committee for Responsible Research) - backed ordinance, which would provide increased public accountability in animal research, including a 5-member review board of all animal experiments. Let's work to keep the ethical costs of using animals as low as possible, until that future day when we have enough alternatives that we ~~are~~ no longer need to use + abuse animals in pursuit of scientific knowledge.

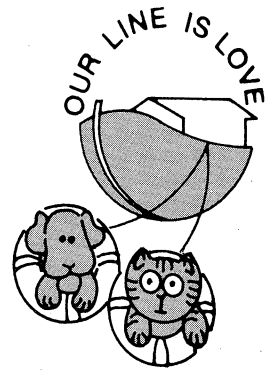

Sincerely,
Cheryl Heywood

Dear Sirs;

I read about the ban on the LD50 and Draize tests in your city. Although I rarely write letters, I felt that I wanted to thank you for taking this stand. The cruelty involved in these tests is sickening, and you should be proud that you took an often unpopular stand in halting this abuse.

I also understand that another proposal, designed to provide increased public accountability in animal research, was introduced by Councillor Vellucci.

I hope that you will support this measure, and not compromise on any point.

Thank you again for your humane actions.

Sincerely,
Mrs. Cheryl Lavene
