To The Honorable, The City Council:

In response to Awaiting Report Item No. 21, regarding a report on missing lights in Central Square, Assistant City Manager for Community Development Susan Schlesinger reports the following:

On Wednesday, September 3, 1997 at 8:00 p.m. representatives from the Community Development Department, Electrical Department and the design staff of Carr Lynch, and Sandell, reviewed the light levels in Central Square. It was determined that four (4) additional pedestrian lights will be installed in the Central Square Improvements Project. The installation of these lights began on September 17th with an anticipated construction completion of one week. Two lights will be located on the south side of Massachusetts Avenue at the Carl Barron Plaza, and two lights will be located on the north side, between the blocks of Prospect Street and Essex Street. Please see attached map locations.

Very truly yours,

Robert W. Healy
City Manager
