Gentlemen:

As a property owner in the City of Cambridge I am writing to the Council to air my feelings of outrage at the exorbitant increases in the City's Water Department sewer charges over the past few years.

The rate for sewer charges for property owners has doubled since 1981 and appears it may someday meet or even surpass the rate for water usage in the city. Kindly note the following:

<u>Date:</u>	<u>Rate:</u>
April 1981	Water 0.46 Sewer 0.31
November 1981	Water 0.66 Sewer 0.46
April 1982	Same
September 1982	Same
May 1983	Water 0.66 Sewer 0.62

Please look into the above matter to justify the cause for such rapid increases in the above mentioned charges for property owners.

Very truly yours,

Beatrice Fox
