EXECUTIVE DEPARTMENT
ROBERT W. HEALY
City Manager

RICHARD C. ROSSI
Deputy City Manager

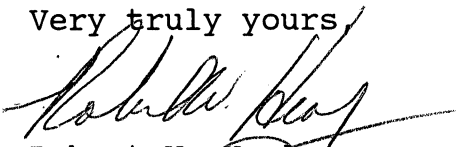

January 7, 1990

To the Honorable, the City Council:

In response to Awaiting Report #61 regarding the catch basin at 63 Prentiss Street, please be advised that the Department of Public Works (DPW) is aware of the flooding catch basins in this area. The problem is complicated by the fact that the sewer is a combined sewer (receives both storm run off and waste water) and as a result, surcharges during heavy and/or moderate rainfall.

This sewer is scheduled for replacement under the Phase VI Sewer Separation Program. Residents who have problems with flooding in this area are encouraged to contact the DPW regarding measures they make take to help alleviate the flooding problem.

Very truly yours,

Robert W. Healy
City Manager

Agenda # 6 *S-91*

Awaiting Report Item Number 61 regarding
the catch basin at 63 Prentiss Street.

In City Council,
