To the City Council,

As a concerned citizen - one interested in animal welfare here in Cambridge, I urge the council to pass a strong ordinance which will truly protect the animals used in the labs of this city. Even the scientific community now admits that state and federal regulations ( and inspections!) are not adequate.

There has been secrecy about these experiments and procedures for too long now! We must know what is going on in the labs in Cambridge in order to make any proper evaluations about whether they are acceptable or not. And a committee which will do this fairly must be made up of members from the scientific community plus persons who are truly concerned about animals and their welfare!

Yours sincerely

*Ann Stathos*
