

ADDENDUM D TO THE ALCOHOLIC BEVERAGE RULES AND REGULATIONS

WRITTEN POLICY ON LIQUOR AND ENTERTAINMENT LICENSES
IN HARVARD SQUARE, CENTRAL SQUARE AND MASS. AVENUE
BETWEEN SAID SQUARES

The License Commission hereby affirms the following policy:

1. The Commission is creating three (3) areas where neither new annual all alcoholic beverage restaurant licenses, nor new annual all alcoholic beverage package store licenses, nor *new annual beer and wine restaurant licenses, nor* new annual beer and *package store* wine licenses will be granted. The geographic boundaries of each area is marked on the map attached.

2. Exceptions to the policy outlined in paragraph 1 above will be as follows:

- (a) if the new license to be granted is by way of a transfer of the same kind of license from within the same bounded area, or
- (b) if the license application after a rigorous, searching, and detailed examination passes scrutiny by the Commission and if there is a consensus among local residents, local businesses, and the Commission that the new license to be granted fulfills an extraordinary public need for the particular kind of enterprise to be licensed; that the license applicant has made adequate

provisions for parking; that the license applicant has made adequate provisions to verify that unreasonable noise from within the premises to be licensed or by the license applicant's patrons outside will not be audible from residential premises; and generally that the new license to be granted significantly furthers the common good of the City of Cambridge. No license will be granted under this section 2(b) unless the license applicant agrees to accept Addendum A to the Rules and Regulations of the Cambridge Board of License Commissioners Relating to Alcoholic Beverages. Further, since "Cap Area 1" is so overwhelmed by and saturated with liquor licenses, the Commission hereby formally states its reluctance to grant an exception for "Cap Area 1," which is centered at the Harvard Square Kiosk, in the absence of a City Council Resolution favorable to the granting of the license application as an exception.

3. To facilitate the determination whether there is such a consensus as described in 2(b), the Commission Chair shall send a conspicuous notice concerning an application subject to this policy to the appropriate civic groups and business associations, to the extent such are in existence and known.

4. The following kinds of applications by existing liquor

licensees in the three (3) bounded areas shall be the subject of an advertised public hearing and shall be denied unless an exception is warranted under section 2(b) above:

- (a) for a year-round indoor extension of premises;
- (b) for an upgrading from a beer and wine license to an all alcoholic beverage license;
- (c) for an extension of hours to operate beyond 1:00 a.m. or for an extension of days to operate seven (7) days a week;
- (d) for an increase in capacity;
- (e) for an ^{annual} entertainment license allowing dancing by patrons ^{or} on premises which are not soundproofed and vibration-proofed, amplified sound equipment.

5. Applications for one-day licenses and warm-weather, outdoor extensions of premises shall generally be reviewed in an ordinary fashion and not with rigorous, searching, and detailed examination. The Commission acknowledges that one-day liquor and entertainment licenses and seasonal outdoor extensions of premises generally fulfill an extraordinary public need not otherwise fulfilled.

6. The basis for the Commission's policy is its public hearings on licensing policy and findings:

- (a) that there are in each bounded area an adequate number of ordinary places at which the public may buy alcoholic beverages;

- (b) that ordinary public need is therefore not served by the addition of further liquor licenses in the three (3) bounded areas; and
- (c) that the additional liquor licenses in the three (3) bounded areas would ordinarily not protect the common good due to an increase in illegal parking and due to an increase in the number of unreasonably noisy patrons in residential areas and due to an increase in music-noise and vibrations emanating from licensed premises and perceptible on residential premises.

7. The Commission hereby publicly states that it presently is not in possession of sufficient evidence whether in any or all of the three (3) bounded areas there should be a licensing cap on non-alcoholic beverage restaurants or so-called "juice bars" or on entertainment facilities where alcoholic beverages are not served. The Commission will further investigate and will keep under advisement for a period not to exceed one year the question whether a licensing cap is warranted in any or all of three (3) bounded areas relative to non-alcoholic beverage facilities providing food, soft drinks, or entertainment.

8. As announced orally at the Commission hearing on September 10, 1985, the policy contained in this Addendum D is applicable in the three (3) designated areas to all liquor license applications received after said September 10, 1985 and

to all entertainment license applications received after the date of this Addendum for dancing by patrons or for amplified sound equipment to be allowed on premises where alcoholic beverages are served. It is further provided that Section 4(c) shall not apply to the premises at 10-18 Brookline Street (T.T. the Bear's Place) until 4/8/80 and that the provisions of 4(a), (c), and (d) shall not apply to 11-19 Brookline Street (Latin-O's) until the same date, 4/8/80.

Also 4 additional Capped Areas passed:

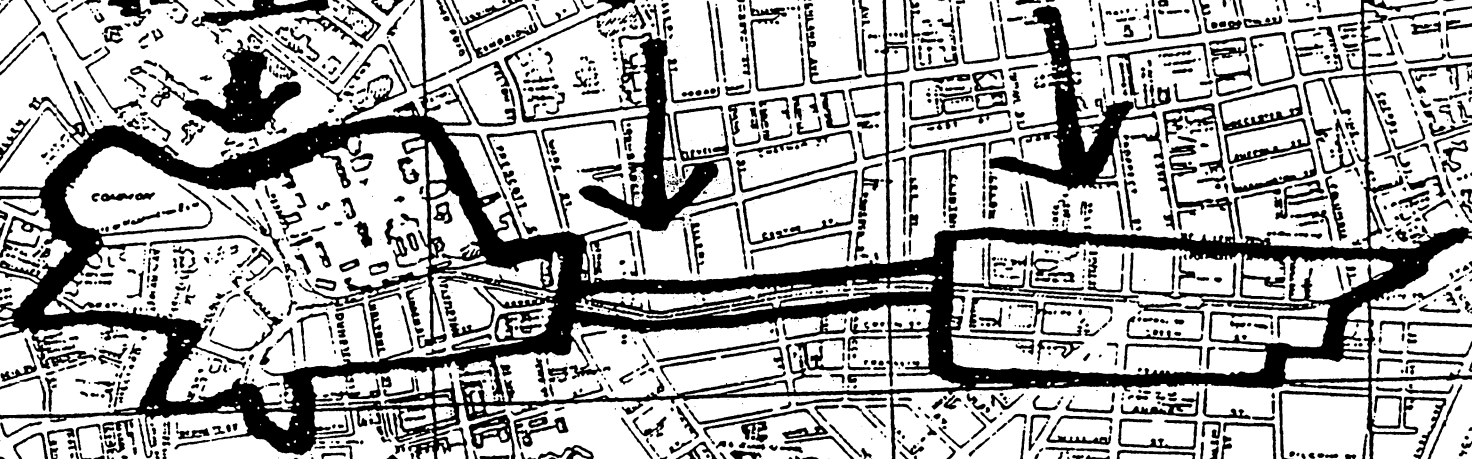

- Arlington Ave - Mass Ave to Porter Sq*
- Porter Sq.*
- Porter Sq. to Harvard Sq - Mass Ave*
- Inman Sq.*

NOVEMBER 13, 1990

Recommendation of License Commission Chairman
as to Liquor Licenses in the Area of One Kendall Square

Approved
11/13/90

It is proposed to establish a "cap" area along the boundary set on the enclosed map. The boundary line goes down the middle of Harvard Street, the railroad track, and York Street. The boundary line goes down the parcels on the west side of Windsor Street so as to include parcels on both sides of that street.

This would mean that once the cap is established, there would be a legal presumption against additional bars, liquor restaurants, clubs, or package stores in the cap area.

As of this date, there are 13 already approved liquor licenses inside the cap area. However, four specific items need to be addressed.

First, there are two liquor licenses presently sited on the exact same premises. It is recommended that the License Commission hold a hearing on this matter and cancel one of these licenses.

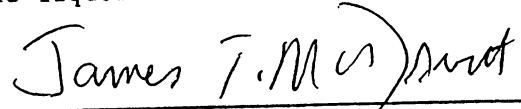

Second, a license for an additional all-alcoholic beverage restaurant was requested by the developers at One Kendall Square, but the statutory requirements relative to liquor license applications have not been fulfilled as to this request. The License Commission must therefore dismiss this application and regard the prior hearing on this new license as improvidently set up.

Third, La Brioche Cafe has a pending license application for the office building at 201 Broadway. So long as Cafe La Brioche by December 15, 1990 shows that it has sufficient off-street parking spaces as required by the Zoning Division, I recommend that we grant this license but restrict the license forever to this site at 201 Broadway. Granting a pending license application while voting on a restrictive "cap" area is harmonious with what the License Commission has done in other parts of the city.

Approved
11/27

November 13, 1990
Page Two

Fourth, the Zoning Board of Appeals has granted zoning permission for a hotel at One Kendall Square. Although this in no way binds the License Commission, it puts us on notice that a hotel is contemplated. Also, cap areas have to date been established without presumption against hotels. Therefore, without committing to vote for a hotel, it is recommended to allow a hotel license application to be submitted without being subjected to the cap on clubs, bars, package stores, and liquor restaurants.

Re: Council Order #9, 12/14/92
Caps on pouring licenses

RECEIVED
92 DEC 22 AM 9:30
CITY OF CAMBRIDGE

In response to the above order, I enclose all the documents with regard to the cap policy on liquor licenses in the city.

The basic policy is that if you are a new establishment or an existing establishment in a capped area, (and there are 15 capped areas-see map enclosed), you may not apply for: a new all alcoholic or beer and wine license, restaurant or package store; increase in capacity; increase in premises description; an upgrade from beer and wine to all alcohol; extension from 6 days to 7 days; an annual entertainment license allowing dancing on the premises without proper soundproofing.

This policy also provides for exceptions to the rule above outlined in paragraph 2(b) of Addendum D: that if an applicant after a rigorous searching and detailed examination passes consensus among local residents, local businesses, and the Commission, that the above fulfills an extraordinary public need; that the applicant has made adequate provisions for parking; that the applicant has made provisions to verify that unreasonable noise from within or patron noise outside, will not be audible from residential premises and that generally the common good will be served, the Commission may allow such applications. Cap area #1, Harvard Square can not be granted even under these exceptions without a City Council resolution favorable to granting the application.

If you need further information, please let me know.

ADDENDUM D TO THE ALCOHOLIC BEVERAGE RULES AND REGULATIONS

WRITTEN POLICY ON LIQUOR AND ENTERTAINMENT LICENSES
IN HARVARD SQUARE, CENTRAL SQUARE AND MASS. AVENUE
BETWEEN SAID SQUARES

The License Commission hereby affirms the following policy:

1. The Commission is creating three (3) areas where neither new annual all alcoholic beverage restaurant licenses, nor new annual all alcoholic beverage package store licenses, nor *new annual beer and wine restaurant licenses, nor* new annual beer and wine *package store* licenses will be granted. The geographic boundaries of each area is marked on the map attached.

2. Exceptions to the policy outlined in paragraph 1 above will be as follows:

- (a) if the new license to be granted is by way of a transfer of the same kind of license from within the same bounded area, or
- (b) if the license application after a rigorous, searching, and detailed examination passes scrutiny by the Commission and if there is a consensus among local residents, local businesses, and the Commission that the new license to be granted fulfills an extraordinary public need for the particular kind of enterprise to be licensed; that the license applicant has made adequate

provisions for parking; that the license applicant has made adequate provisions to verify that unreasonable noise from within the premises to be licensed or by the license applicant's patrons outside will not be audible from residential premises; and generally that the new license to be granted significantly furthers the common good of the City of Cambridge. No license will be granted under this section 2(b) unless the license applicant agrees to accept Addendum A to the Rules and Regulations of the Cambridge Board of License Commissioners Relating to Alcoholic Beverages. Further, since "Cap Area 1" is so overwhelmed by and saturated with liquor licenses, the Commission hereby formally states its reluctance to grant an exception for "Cap Area 1," which is centered at the Harvard Square Kiosk, in the absence of a City Council Resolution favorable to the granting of the license application as an exception.

3. To facilitate the determination whether there is such a consensus as described in 2(b), the Commission Chair shall send a conspicuous notice concerning an application subject to this policy to the appropriate civic groups and business associations, to the extent such are in existence and known.

4. The following kinds of applications by existing liquor

licensees in the three (3) bounded areas shall be the subject of an advertised public hearing and shall be denied unless an exception is warranted under section 2(b) above:

- (a) for a year-round indoor extension of premises;
- (b) for an upgrading from a beer and wine license to an all alcoholic beverage license;
- (c) for an extension of hours to operate beyond 1:00 a.m. or for an extension of days to operate seven (7) days a week;
- (d) for an increase in capacity;
- (e) for an ^{annual} entertainment license allowing dancing by patrons ^{or} on premises which are not soundproofed and vibration-proofed, amplified sound equipment.

5. Applications for one-day licenses and warm-weather, outdoor extensions of premises shall generally be reviewed in an ordinary fashion and not with rigorous, searching, and detailed examination. The Commission acknowledges that one-day liquor and entertainment licenses and seasonal outdoor extensions of premises generally fulfill an extraordinary public need not otherwise fulfilled.

6. The basis for the Commission's policy is its public hearings on licensing policy and findings:

- (a) that there are in each bounded area an adequate number of ordinary places at which the public may buy alcoholic beverages;

- (b) that ordinary public need is therefore not served by the addition of further liquor licenses in the three (3) bounded areas; and
- (c) that the additional liquor licenses in the three (3) bounded areas would ordinarily not protect the common good due to an increase in illegal parking and due to an increase in the number of unreasonably noisy patrons in residential areas and due to an increase in music-noise and vibrations emanating from licensed premises and perceptible on residential premises.

7. The Commission hereby publicly states that it presently is not in possession of sufficient evidence whether in any or all of the three (3) bounded areas there should be a licensing cap on non-alcoholic beverage restaurants or so-called "juice bars" or on entertainment facilities where alcoholic beverages are not served. The Commission will further investigate and will keep under advisement for a period not to exceed one year the question whether a licensing cap is warranted in any or all of three (3) bounded areas relative to non-alcoholic beverage facilities providing food, soft drinks, or entertainment.

8. As announced orally at the Commission hearing on September 10, 1985, the policy contained in this Addendum D is applicable in the three (3) designated areas to all liquor license applications received after said September 10, 1985 and

to all entertainment license applications received after the date of this Addendum for dancing by patrons or for amplified sound equipment to be allowed on premises where alcoholic beverages are served. It is further provided that Section 4(c) shall not apply to the premises at 10-18 Brookline Street (T.T. the Bear's Place) until 4/8/80 and that the provisions of 4(a), (c), and (d) shall not apply to 11-19 Brookline Street (Latin-O's) until the same date, 4/8/80.

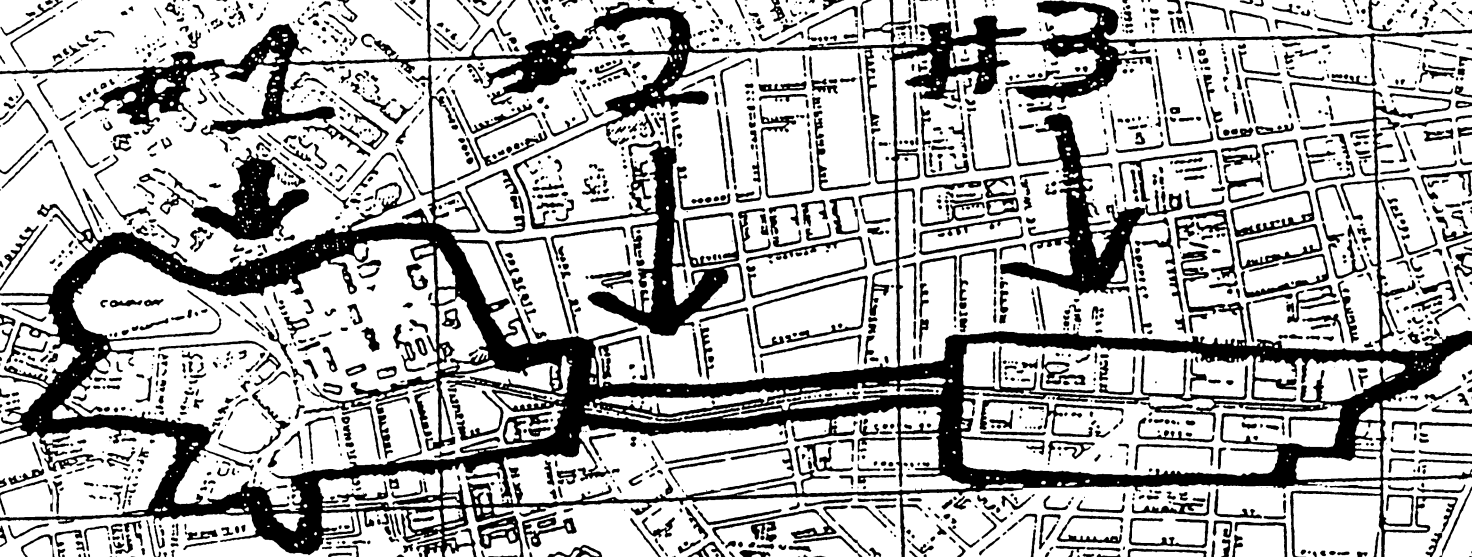

Also 4 additional Capped Areas passed:

- Arlington Ave - Mass Ave to Porter Sq*

NOVEMBER 13, 1990

Recommendation of License Commission Chairman
as to Liquor Licenses in the Area of One Kendall Square

Approved
11/13/90

It is proposed to establish a "cap" area along the boundary set on the enclosed map. The boundary line goes down the middle of Harvard Street, the railroad track, and York Street. The boundary line goes down the parcels on the west side of Windsor Street so as to include parcels on both sides of that street.

This would mean that once the cap is established, there would be a legal presumption against additional bars, liquor restaurants, clubs, or package stores in the cap area.

As of this date, there are 13 already approved liquor licenses inside the cap area. However, four specific items need to be addressed.

First, there are two liquor licenses presently sited on the exact same premises. It is recommended that the License Commission hold a hearing on this matter and cancel one of these licenses.

Second, a license for an additional all-alcoholic beverage restaurant was requested by the developers at One Kendall Square, but the statutory requirements relative to liquor license applications have not been fulfilled as to this request. The License Commission must therefore dismiss this application and regard the prior hearing on this new license as improvidently set up.

Third, La Brioche Cafe has a pending license application for the office building at 201 Broadway. So long as Cafe La Brioche by December 15, 1990 shows that it has sufficient off-street parking spaces as required by the Zoning Division, I recommend that we grant this license but restrict the license forever to this site at 201 Broadway. Granting a pending license application while voting on a restrictive "cap" area is harmonious with what the License Commission has done in other parts of the city.

Approved
11/27

November 13, 1990
Page Two

Fourth, the Zoning Board of Appeals has granted zoning permission for a hotel at One Kendall Square. Although this in no way binds the License Commission, it puts us on notice that a hotel is contemplated. Also, cap areas have to date been established without presumption against hotels. Therefore, without committing to vote for a hotel, it is recommended to allow a hotel license application to be submitted without being subjected to the cap on clubs, bars, package stores, and liquor restaurants.

James T. McDavitt
