February 12, 1996

To The Honorable, The City Council:

In response to Awaiting Report Item No. 32, regarding update on the status of repairs to the North Cambridge train underpass, Public Works Commissioner Ralph E. Dunphy reports the following:

Repairs for the underpass will be made when weather conditions allow. A temporary asphalt walkway is being considered for this area, but may not be the appropriate material due to drainage problems. If that is the case, an alternative material will be selected for installation when weather permits. Efforts will be made when possible to repair any leaks. The daily efforts to keep the area clear of trash and debris will be monitored more closely.

Very truly yours,

Robert W. Healy
City Manager
