OFFICE OF THE CLERK
CAMBRIDGE, MASSACHUSETTS

Dear Mayor and Cambridge City Councilors,

I would like to support the Riverside Study Committee Petition that seeks to maintain a 35ft ht. limit on Harvard's proposed development of Riverside, including the Mahoney site and the Power Plant. Harvard and MIT already own most of the Charles River frontage and the heights they demand have already erected a Chinese wall between the River and the residences of Cambridge's long-time residences. The students of these universities have already displaced most of the City's middle class housing and they take over both our streets and our parks.

Common sense should imply support without changes by the entire City Council for this Petition.

Sincerely, Sheila G. Cook, resident of Cambridge for 50 yrs.
34 Follen Street, Cambridge, MA 02138

I am told the computer is legal as a disabled citizen, but one who is concerned about Cambridge, I try to master electronic messaging — not easy at 83. Therefore many thanks for your accommodation.
