O-21.
Original Order

June 10, 2002

VICE MAYOR DAVIS
COUNCILLOR DECKER
COUNCILLOR MURPHY

WHEREAS: The residents of the City of Cambridge wish to honor the memory of all those who have died as a result of the September 11 crimes and their consequences; and

WHEREAS: The City of Cambridge has a tradition of inclusion and extending protections to all its residents as embodied in its Human Rights Ordinance; and

WHEREAS: The Bill of Rights of the United States Constitution and the Constitution of Massachusetts guarantee those living in the United States the following rights: Freedom of speech, assembly and privacy; Equality before the law and the presumption of innocence; Access to counsel and due process in judicial proceedings; and Protection from unreasonable searches and seizures; and

WHEREAS: We believe these civil liberties are precious and are now threatened by the USA PATRIOT Act, which: All but eliminates judicial supervision of telephone and Internet surveillance; Greatly expands the government's ability to conduct secret searches without warrants; Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations"; Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime; Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order; and

WHEREAS: Federal Executive Orders issued since passage of the USA PATRIOT Act further endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies through: Establishing secret military tribunals for terrorism suspects; Authorizing eavesdropping on confidential communications between lawyers and their clients in federal custody; Lifting Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals; Limiting disclosure of public documents and records under the Freedom of Information Act; and

WHEREAS: Cambridge's representative in Congress Michael Capuano, along with his Massachusetts colleagues, Representatives Frank, McGovern, Olver, and Tierney, found the USA PATRIOT Act inappropriate and dangerous enough to join 66 other representatives in voting against it; and

OFFICE OF THE CITY CLERK
CAMBRIDGE, MASSACHUSETTS

The Honorable City Council
City of Cambridge

Re: USA Patriot Act
Order R-21 June 10, 2002

The City Council is not the proper venue to address concerns about US laws. It is inappropriate to avoid correcting malfunctioning City agencies, while addressing issues which are without the jurisdiction of the Council.

I oppose the Order declaring Cambridge a sanctuary city, and opposing the USA Patriot Act. Reference is made by proponents to a previous declaration of the City as a sanctuary for refugees for Guatemala in 1985. But persons from Guatemala nor from Central America were flying planes into US buildings, and trying to create terror among the population.

The Order focuses on persons who are not threatened by their native country. Indeed they neither fear death here nor there. The precedent does not apply to the current emergency.

The enthusiastic support by citizens, ACLU lawyers and others is admirable. But it is an exercise in futility. Even if successful, the MA constitution provides a greater threat to civil liberties. Part 2, Chapter 2, Section 1, Article VII, states in part:

The governor ... shall have full power by himself, or by any commander, or other officer or officers, ... for the special defence and safety of the commonwealth, to assemble in martial array, and put in warlike posture, the inhabitants thereof, ... and with them to encounter, repel, resist, expel, and pursue, by force of arms, as well by sea as by land, within or without the limits of this commonwealth, and also to kill, slay and destroy, if necessary, and conquer, by all fitting ways, enterprises, and means whatsoever, all and every such person and persons as shall, at any time hereafter, in a hostile manner, attempt or enterprise the destruction, invasion, detriment, or annoyance of this commonwealth;"

Why is there no concern among these civil libertarians about this provision? The powers the governor has are greater than what the Patriot's Act allows.

In an essay, (Reed Irvine and Cliff Kincaid, "Bioterrorism and Civil Liberties," *Accuracy in Media*, May 15, 2002) Irvine reports

Consent Communication #3

A communication was received

Patriot Act order.

**REFERRED TO CALENDAR
ITEM #1.**

on proposed legislation under guidelines of the Model State Emergency Powers Act in 32 states which grant extraordinary powers to states and local governments.

Irvine states, "Once a governor declares a public-health emergency, it's all downhill for civil liberties and privacy rights. Public health authorities can use state militias and police to enforce quarantines, health-care rationing, mandatory examinations and vaccinations, and confiscation of private property. Quotas on rationing of food, fuel, clothing and 'other commodities' are also permissible under this legislation.

Even without a declaration, doctors and pharmacies must report names and personal data, including race and occupation, from any and all cases that 'may be potential causes of a public health emergency.'"

Massachusetts already has such laws in place. Chapter 111 of the General Laws includes the power to define diseases deemed dangerous to the public health (§ 6). An air pollution emergency allows prohibiting vehicular traffic (§ 2B). § 9 gives "inspectors, analysts and chemists" the same powers as police officers.

§ 96 permits warrants to issue "to remove persons infected with dangerous diseases under direction of the director of board of health. § 100 permits taking of houses for safekeeping.

Can we look forward to psychiatrists declaring thinking a dangerous infectious disease and allowing the rounding up of thinking persons? Persons thought to be mentally ill are already subjected to deprivation of civil and constitutional rights. The ACLU and elected politicians never address these daily assaults on the rights of ordinary citizens. Why the intense interest in protecting rights of non citizens? All 50 states and the US government have civil commitment laws which allow for incarceration on the allegation of a police officer or psychiatrist that a person acts weird.

MA state Rep. Alice Wolf, former Cambridge Mayor, cited her Oath of Office to support the US Constitution, as motivation to oppose the USA Patriot Act. Supporting the Constitution includes supporting state and local laws. Why is there no concern about abuses of the Cambridge Commission on Nuclear Disarmament and Peace Education (which calls itself the Peace Commission)? Rep. Wolf openly suggested that persons contact the Peace Commission to oppose the Patriot Act. But that issue is outside of the mission of the Commission. (See City Ordinance Chapter 2.90.050-060)

The Commission has sponsored several activities over the years which are outside of the statutory mission. This waste of taxpayer funds must end. It is an ethics violation. It is magnanimous of employees of the Commission to speak out against a few of the thousands of abuses throughout the world. But who chooses which abuses are addressed using City taxpayer funds? This is a personal benefit which is not authorized by law.

This pattern of abuses of power is not unique to the Commission. The good intentions of the Commission are not doubted. But doing good when one has a different legal mission does not mitigate the misappropriation of funds.

Letter from Roy Bercaw June 12, 2002

Moreover, why are the City Council and the three Cambridge state Reps. silent concerning the open defiance by the City Manager and the City Attorney of the Open Meetings law (M.G.L. Chapter 39 § 23B et seq.)? The secret meetings by the City Manager on the Harvard petition for an easement for a tunnel under Cambridge street must be open to the public. But at least four such meetings were held in secret and the chosen civilians are not talking. The Oath of Office applies to these violations also.

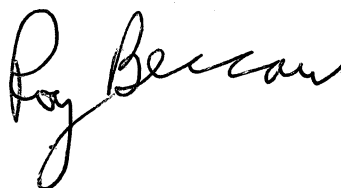

The proposed Order cites *Zadvydas v. Davis* (US Supreme Court) saying that "the Due Process Clause applies to all 'persons' within the United States." But state and US laws regularly deprive alleged mental patients of this basic right, and others. Why is there no concern or recognition at present or historically from these self-declared humanitarians? Why are mental patients denied these rights and the attention of elected officials and civil libertarians?

The proposed Order states, "the City of Cambridge has gone on record 'affirming our diversity' and the need to 'be eternally vigilant against all forms of bigotry in our community and elsewhere.'" Yet daily denial of rights for many persons with disabilities remain off the radar screen of elected officials and these civil libertarians. Daily references in major media publications are never questioned by these same alleged anti-bigotry activists regarding insults to mental patients.

For these reasons I strongly oppose this order. I question the bona fides of some of these petitioners, in view of their selective support for constitutional rights. This is hypocrisy.

Saying this effort is to honor those "who have died as a result of the September 11 crimes" shows disrespect for them and their loved ones. The attack on September 11 was not a crime. It was an act of war as a citizen said at the City Council on June 10, 2002.

Several Muslim nations and those of Arab dominant populations currently teach their young people to hate America, Israel and Jews; to create an atmosphere where killing oneself in order to kill Israelis, Jews and Americans is a religious duty. This City should not be used as a sanctuary for persons who desire to kill American Citizens, Jews and Israelis.

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

From the Text of the Resolution

The USA Patriot Act:

- All but eliminates judicial supervision of telephone and Internet surveillance;
- Greatly expands the government's ability to conduct secret searches without warrants;
- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

From the Text of the Resolution

The USA Patriot Act:

- All but eliminates judicial supervision of telephone and Internet surveillance;
- Greatly expands the government's ability to conduct secret searches without warrants;
- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

valid
significant, but I suspect ^a the cause ~~can be~~ deeper than that. ~~It may also be that~~ individuals ~~are~~
be
concerned that resources are leaving the "family" and seem to be benefiting outsiders.

Evolutionary theory, and ethnocentrism in particular, may also ~~inform an explanation~~
why some resources are ^{highly} more valued than others. One may recall the resentment in the United

States in the 1980s and early 1990s when Japanese corporations bought major landmarks in

American cities. The fact that ^{the purchasers were} Japanese corporations ~~were buying this real estate~~ seemed to

trouble Americans more than the ^{larger} greater investment from, for example, British and Dutch

concerns. ^{Similarly} Men perceive women ^{or} in many cultures as a valued resource and ^{not marry} those who date the

enemy or foreigners, ^{especially across races} particularly interracially, ~~may be~~ ^{one may} a cause of significant friction. Think of

^{French} the public humiliation of French women who had relationships with occupying German troops ~~or~~

^{arose} the tensions that arise in America's ~~alliance relationships for example with Japan~~ when ^{those} U.S.

servicemen rape schoolchildren in Okinawa or that occasionally erupt in South Korea between

and American servicemen who are dating South Korean women ^{and} South Korean men ^{These} ^{the U.S.}

tensions in what are ^{with Japan and Korea} by most accounts cooperative alliance relationships ~~may be caused in part~~

^{I suspect the key is} precisely by human emotions. This suggests that the difficulties in cooperation are multiple.

Realists have done an excellent job in defining some of them, but I suspect that an evolutionary

theory permits more to be identified for research.

Economists have used the assumption of *Homo economicus* without major concern

^{in theory's} about the scientific foundations ~~of the theory~~. This is in accord with Milton Friedman's famous

argument that ^{the} assumptions of a theory are less important than its ability to "yield sufficiently

accurate predictions" of behavior.¹⁴³ However, their critics have expressed greater concern, ^{So} as

^{I have described} some of these ~~were described~~ above. Using evolutionary theory, economists and other users of

rational choice theory will have a scientific foundation for the assumptions of egoism and

rationality and so will be able to respond directly to the critics on each of these points. This

significantly improves the theory, but will not wholly mollify the critics. Even an improved

rational choice theory that is anchored on an evolutionary foundation may still be criticized for

^{much} placing too ~~great an~~ emphasis on egoistic behavior while slighting forms of selfless behavior and

quite
cooperative,
what can
cause such
tensions?

- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

From the Text of the Resolution

The USA Patriot Act:

- All but eliminates judicial supervision of telephone and Internet surveillance;
- Greatly expands the government's ability to conduct secret searches without warrants;
- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

PLEASE RETURN TO: CAMBRIDGE PEACE COMMISSION
51 INMAN ST
CAMBRIDGE, 02139

From the Text of the Resolution

The USA Patriot Act:

- All but eliminates judicial supervision of telephone and Internet surveillance;
- Greatly expands the government's ability to conduct secret searches without warrants;
- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

From the Text of the Resolution

The USA Patriot Act:

- All but eliminates judicial supervision of telephone and Internet surveillance;
- Greatly expands the government's ability to conduct secret searches without warrants;
- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

A PETITION TO THE CAMBRIDGE CITY COUNCIL

As residents of the City of Cambridge, we support the attached resolution that requests the City Council to reaffirm its tradition of inclusion and commitment to diversity and to protecting the human rights and civil liberties of all its residents. These rights, which are guaranteed by the Bill of Rights of the United States Constitution and the Constitution of Massachusetts include:

- Freedom of speech, assembly and privacy;
- Equality before the law and the presumption of innocence;
- Access to counsel and due process in judicial proceedings; and
- Protection from unreasonable searches and seizures.

We believe these precious civil liberties are now threatened by the USA PATRIOT Act and by Federal Executive Orders that endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies. In view of its strong tradition of defending human rights and civil liberties for all, we are petitioning the Cambridge City Council at this time, when these rights and liberties are under siege, to reaffirm the status of Cambridge as "A Sanctuary City"; and to declare that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for the persecuted; and further to ask local and state police, the local U.S. Attorney's office, and the FBI to not participate, to the extent legally permissible, in law-enforcement activities authorized by the Patriot Act and Executive Orders that threaten the civil rights and civil liberties of the people of Cambridge.

From the Text of the Resolution

The USA Patriot Act:

- All but eliminates judicial supervision of telephone and Internet surveillance;
- Greatly expands the government's ability to conduct secret searches without warrants;
- Grants unchecked power to the Secretary of State to designate domestic groups as "terrorist organizations";
- Grants power to the Attorney General to subject non-citizens to indefinite detention or deportation even if they have not committed a crime;
- Grants the FBI broad access to sensitive medical, mental health, financial and educational records about individuals without having to show evidence of a crime and without a court order.

Federal Executive Orders issued since passage of the Patriot Act:

- Establish secret military tribunals for terrorism suspects;
- Authorize eavesdropping on confidential communications between lawyers and their clients in federal custody;
- Lift Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals;
- Limit disclosure of public documents and records under the Freedom of Information Act.

In adopting the Resolution, the government of the City of Cambridge Resolves to act in the spirit of our state and federal Constitutions by asking local and state police, the local U.S. Attorney's office, and the FBI to:

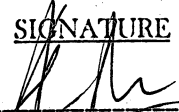

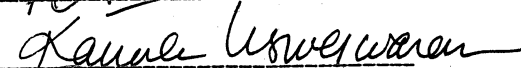

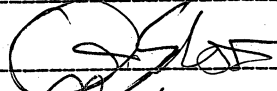

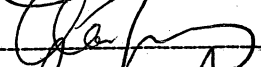

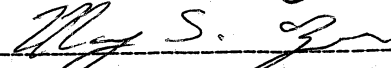

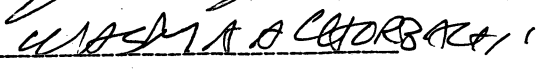

1. Report to citizens regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act or new Executive Orders, including disclosing the names of any detainees;
2. Not participate, to the extent legally permissible, in law-enforcement activities that threaten civil rights and civil liberties of the people of Cambridge, such as surveillance, wiretaps, and securing of private information, which the Act and Orders authorize;
3. End racial profiling in law enforcement and detentions without charges; and
4. Openly work for the repeal of the parts of the Act and Orders that violate civil rights and civil liberties

ACLU launches Patriot Act suit

The American Civil Liberties Union filed a lawsuit against the federal government yesterday aimed at curbing the vastly expanded spy powers won under the anti-terrorism law passed soon after the Sept. 11 attacks.

The suit, filed in federal court in Detroit on behalf of six Arab-American groups, targets a key provision of the USA Patriot Act that gives the FBI more leeway to conduct domestic surveillance.

"This lawsuit is the first legal challenge to the USA Patriot Act," said Kary Moss, director of the Michigan chapter of the ACLU.

Attorney General John Ashcroft, who has described the Patriot Act as a critical weapon in the war declared by President Bush after the attacks on the Pentagon and World Trade Center, is a defendant in the ACLU suit, along with FBI Director Robert Mueller.

Under Section 215 of the Patriot Act, which the lawsuit challenges as unconstitutional, the FBI can secretly search and seize records, books, papers or other personal belongings of practically anyone, as long as they claim the person might be a terror suspect.

It allows agents to demand records pertaining to a person's library-borrowing habits or book purchases.

The agency can also impose a lifelong gag order prohibiting anyone served with Section 215 orders — aimed, for example, at getting information about a suspect's medical history, political activities or religious affiliation — from telling someone else about the investigation.

The Justice Department issued a statement defending Section 215, saying it would be used only to conduct a narrow set of investigations.

- WHEREAS: Federal Executive Orders issued since passage of the USA PATRIOT Act may further endanger the rights and security of both citizens and non-citizens who speak and act legally in opposition to government policies through: Establishing secret military tribunals for terrorism suspects; Authorizing eavesdropping on confidential communications between lawyers and their clients in federal custody; Lifting Justice Department regulations against covert, illegal counter-intelligence operations by the FBI that in the past targeted domestic groups and individuals; Limiting disclosure of public documents and records under the Freedom of Information Act; and
- WHEREAS: Cambridge's representative in Congress Michael Capuano, along with his Massachusetts colleagues, Representatives Frank, McGovern, Olver, and Tierney, found the USA PATRIOT Act inappropriate and dangerous enough to join 66 other representatives in voting against it; and

- WHEREAS: This law and these executive orders particularly target foreign nationals and people of Middle Eastern and South Asian descent but could affect any one of us in the USA acting legally and speaking against in opposing government policy and
- WHEREAS: In Zadvydas v. Davis this past session the U.S. Supreme Court affirmed that "the Due Process Clause applies to all 'persons' within the United States, including aliens, whether their presence here is lawful, unlawful, temporary, or permanent"; and
- WHEREAS: A 1985 City Council resolution declared the City of Cambridge "A Sanctuary City" in which city departments and employees are committed to protect refugees from: requests for information about, or conditioning receipt of city services on, citizenship status; "Investigations or arrest procedures, public or clandestine, relating to alleged violations of immigration law..."; and Deportation and dangerous returns to their homelands; and
- WHEREAS: Through its diversity committee, its support for the Immigrant Voting Rights proposal, and its annual Holocaust commemoration resolution, the City of Cambridge has gone on record "affirming of our diversity" and the need to "be eternally vigilant against all forms of bigotry in our community and elsewhere"; now therefore, be it
- RESOLVED: That the City of Cambridge reaffirm its status as "A Sanctuary City," by protecting civil rights and civil liberties of all people consistent with the Bill of Rights and the Massachusetts Constitution; and be it further
- RESOLVED: That the City of Cambridge affirm its commitment to embodying democracy, to embracing and defending the human rights and civil liberties now under siege, to guaranteeing the economic security required to make those liberties viable for all, regardless of citizenship status, gender, racial identification, religious affiliation, age, or country of origin; and be it further
- RESOLVED: That the City Council, as directed by the City Manager, declares that no City of Cambridge department or employee, to the extent legally possible, violate this city's existing and herewith reaffirmed policy to serve as a sanctuary for civil rights and civil liberties; and further
- RESOLVED: That it shall be the policy of the City of Cambridge, to the extent legally possible and as directed by the City Manager, to hereby request that:
1. Local law enforcement continue to preserve residents' freedom of speech, religion, assembly, and privacy; rights to counsel and due process in judicial proceedings; and protection from unreasonable searches and seizures even if requested or authorized to infringe upon these rights by federal law enforcement acting under new powers granted by the USA PATRIOT Act or orders of the Executive Branch;
 2. The City Manager inform federal and state law enforcement officials acting within the City of our desire that they not engage in or permit detentions without charges or racial profiling in law enforcement; further that the Cambridge Police Department not engage in racial profiling or detention without charges; and

3. The local U.S. Attorney's Office, the Office of the Federal Bureau of Investigation, Massachusetts State Police, and local law enforcement authorities and city departments report to the Cambridge Human Rights Commission regularly and publicly the extent to and manner in which they have acted under the USA PATRIOT Act and new Executive Orders, including disclosing the names of any detainees held in eastern Massachusetts or any Cambridge residents detained elsewhere; and be it further

RESOLVED: That the City Clerk communicate this resolution to all city departments, the General Court, the Governor and Attorney General of the Commonwealth of Massachusetts, the Massachusetts Congressional delegation, the United States Attorney General, and the President of the United States; and be it further

RESOLVED: That the provisions of this resolution shall be severable, and if any phrase, clause, sentence, or provision of this resolution is declared by a court of competent jurisdiction to be contrary to the Constitution of the United States or of the Commonwealth of Massachusetts or the applicability thereof to any agency, person, or circumstances is held invalid, the validity of the remainder of this resolution and the applicability thereof to any other agency, person or circumstances shall not be affected thereby.
