DEPARTMENT OF PUBLIC UTILITIES

May 17, 1961

D. P. U. 13126-B

Petition of Metropolitan Transit Authority for approval by the Department of the erection, maintenance and use of poles to support the wires of its electrical system.

Appearance: W. Fitzsimons, Esq., for the Petitioner

This is a petition of the Metropolitan Transit Authority under the provisions of section 10 of Chapter 544 of the Acts of 1947 for a determination that public interest requires the granting of permission to erect, maintain and use a pole to support the wires of its electrical system on the traffic island at the junction of Massachusetts and Somerville Avenues in the city of Cambridge.

The location is required to replace an existing pole now located on the sidewalk on the easterly side of Somerville Avenue. The relocation of this pole is at the request of the Massachusetts Department of Public Works and is necessitated by highway construction in the area.

After notice, a public hearing held at the State House on May 12, 1961 at which time no one appeared in opposition, and after consideration, it is

ORDERED: That the Metropolitan Transit Authority be and hereby is granted permission to erect, maintain and use one pole to support the wires of its electrical system in the city of Cambridge as follows:

One (1) pole on the traffic island at the junction of Massachusetts Avenue and Somerville Avenue. This location is shown by a white dot on a

Metropolitan Transit Authority plan No. C-15442 dated November 2, 1960 on file with the Department and further identified as Exhibit 1.

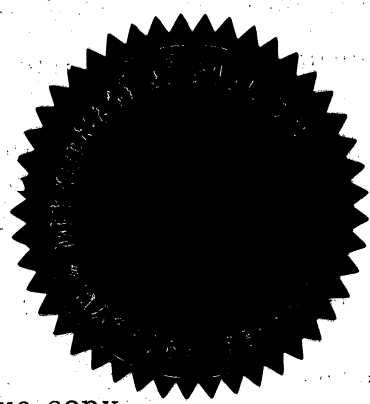

Also permission be and hereby is given to said Metropolitan Transit Authority to attach its wires, fixtures and related apparatus to said pole and to make underground and surface alterations to the street necessary for that purpose, all in accordance with the testimony given at the hearing. And the Department

DETERMINES the above described grant of location to be in the public interest.

By order of the Department,

(signed) FRANCIS J. HICKEY, Jr.

Secretary
