

133 Appleton Street
Cambridge, Mass.
April 15, 1970

Dear Sir,

I think it's about time you thought about pollution. I saw a program the other night about pollution. Mr. Mc Gee said one day or another we have to think about progress. So, I think you sir, should start thinking, and doing something about pollution. Mr. Mc Gee said, Life on this planet is a very tender thing. Please do something. Write and tell me what you are going to do.

Sincerely yours,
Terry Gavin
