Dear Colleague:

I am writing to extend to you my personal invitation to attend our conference on the Urban Education Experience Saturday, October 22, 1983 at Cambridge Rindge & Latin High School.

This program is being used to showcase the programs developed over the past few years by the teachers and administrators of the Cambridge Public School System. I believe it will be an opportunity for you to find out why Cambridge is the finest small urban school system in the country. It is a day of creative expression to recognize the efforts of our teachers, to share with other educators, and to demonstrate the school department's commitment to quality in serving our diverse student population.

As leaders within the city, I would hope you would come and share this day with us.

Sincerely,

William C. Lannon
Superintendent of Schools
