Dear Councillor Triantafyllou:

Thank you for your note concerning the elevator at  
Alewife T station. Alewife has 2 entrances. One, the large  
main entrance has a working elevator.

However the elevator I refer to is at the North  
Cambridge entrance near Russell field. This elevator is really  
a shaft - there is no elevator. My request is that <sup>this</sup> shaft  
become a working elevator. I thought this up now because  
I thought that at the time <sup>the</sup> Alewife elevator was under  
discussion all elevators or escalators "to go" could be discussed.

I hope my request is clear. I do appreciate

your concern.

In sum the shaft near the N. Cambridge  
Alewife T station entrance should become a real  
working elevator.

If you need any further information,  
please call me at 868-2139 and let me know when it  
is a good time to reach you.

Thank you.

Catherine E. Karletsky
