To the Cambridge City Council
City Hall
Cambridge, Massachusetts 02139

Please be advised that your Engineering Department has reviewed the locus of Aberdeen Way as required by Ordinance #742, Article VIII, Section I.

Our findings are as follows:

Area is adequately bounded and held horizontal and vertically in our survey files.

Roadway is adequately graded with a satisfactory wearing surface.

Drainage is adequate.

Required pole location is within the Way, which is required.

Utilities will not have to be altered.

Our findings are all positive to this proposal.

Yours truly,

James F. Rice, Jr.
