

Gentlemen :-

July 27

At the Fresh Pond Golf Course

The city charges money to golfers for the privilege of playing. For the past month, in the heavy playing hours, great sprays of water are turned on for hours in the SUNLIGHT thus wasting much of the water which lies in pools on the greens & tees rendering the important areas UNPLAYABLE. A hired hand then squeegees the water with a small board off the green - AMAZING! Meanwhile the golfers get soaked if they venture near the green.

Have you noticed that 'LITTLE FRESH' water level is down in water about $\frac{1}{3}$. The taxpayers are paying for the grossly wasted water. Gentlemen. What to do? Every competent Supt. of a golf course waters before sunup + after sundown Only. Both City Manager, & Parks Commissioner have been notified. Will you act, or will the golfers spread the word in newspapers or demand Court Action for relief of TAXPAYERS + GOLFERS who are being shortchanged. The above is the sentiment of twenty (20) citizens.

Edw J. Murray

Comm. from Edward J. Murray re:
complaint against the Fresh Pond
Golf Course.

In City Council,

August 4, 1980
