To the Honorable Members of the City Council:

Thank you for the resolutions you gave me at my retirement party on the 16th. I appreciate your consideration and thoughts very much.

Even more I appreciate having had the opportunity to work with all of you as well as with previous members of the Council. You have always been thoughtful and fair in matters involving the public health in Cambridge. You have been innovative and you have taken great leadership in many of the controversial issues which revolve around improving health and preventing disease.

Your support has been solid. The Department of Health and Hospitals has changed and must continue to change in these increasingly competitive times. Your support has been vital to its ability to go in the directions necessary to survive and flourish.

Thank you again.

Yours sincerely,

Melvin H. Chalfen, M.D.
