September 16, 1996

Dear Mr. Nicoloro:

I would like to take this opportunity to thank you and your staff for providing the training at the Water Treatment Facility during July and August. The training was invaluable to the members of the HazMat Task Force and the first alarm companies who respond to the Water Treatment Plant and the reservation property. One hundred and twelve firefighters attended the training.

The personnel from the Water Department who participated in the training, Mr. Timothy MacDonald, Mr. Chip Norton, Mr. Sam Corda, Mr. Ed Dowling, Mr. Joseph Palomba, and Ranger Jean Rogers, were extremely professional and knowledgeable. They covered all areas of concern including the Cambridge watershed, water treatment, chemicals storage and use, reservoir storage, and the distribution and hydrant systems. I would also like to thank you for participating in the training program.

Because your staff was willing to take time from their busy schedules to participate in this training, members of the Cambridge Fire Department have a better understanding as to what occurs on a daily basis at the Water Treatment Facility. With this knowledge, they are well prepared to handle an emergency at your facility if the need arises.

Thanks again for a job well done.

Sincerely,

Capt. Stephen G. Persson
Training Division
