RE: North Cambridge Railroad Crossings

Dear Councillors:

I write to report that the Community Development Department has taken the initiative to gather together the different parties who are interested in the solution to the safety problem. The members of our Subcommittee met with staff members of the Community Development Department and Assistant City Manager Rosenberg on May 6, 1993. At that time, a task force was organized and given various assignments, including communicating with the MBTA, MDC, Conrail and whatever other transportation agencies are involved, commercial interests and nearby residents, with a goal toward bringing them all together and finding interim and then long-term solutions. Our next meeting will be on May 20. We hope to reach a consensus on how best to address this problem, and when we do, we will ask for the Council's support.

Sincerely yours,

Richard D. Clarey
