Just A Start Program
320 Cambridge St.
Cambridge, Ma.

Dear Program Director:

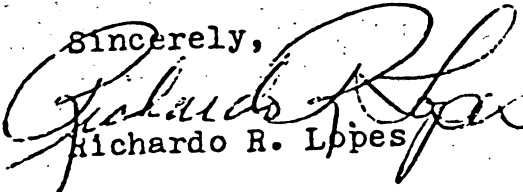

I would like to bring to your attention the work of Allan R. Moore and his crew of eight: Ed Flynn, Mike Mangano, Joe Bnevento, Christine Bradly, Joe Bradley, Patty Angier, Milford Armstrong, and Joey McNeill.

Recently, this crew worked on the hallway of the apartment where I reside, at 413 Portland St. Mr. Moore displayed the qualities of leadership and responsibility, while the crew conducted themselves in a mature manner. The work completed was of a professional quality and is deserving of recognition.

This is a time of accountability, especially for public service programs that are in existence due to the support of the clients they serve, ie., the community. It is my expectation that your office, and the young men and women who are employed by Just A Start continually strive for excellence while developing the skills needed to be productive citizens.

My observation of this crew's work has given me hope that my expectations are being sought.

Sincerely,

Richardo R. Lopes
