March 4, 1996

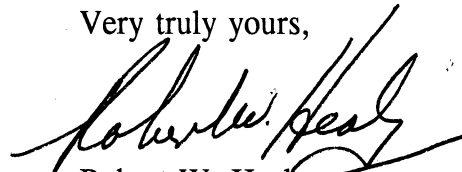

To The Honorable, The City Council:

In response to Awaiting Report Item No. 8, regarding the progress of addressing problems relating to private ways in the City, please be advised of the following:

During the past several months, Community Development, Public Works and Traffic, Parking and Transportation Departments have been meeting to revise the minimum standards for acceptance of existing private ways as public ways. The draft was discussed with the Planning Board on February 20, 1996. The final proposed standards will be submitted to the Planning Board at their March 5th meeting.

Since the standards have not been revised since 1969, it was determined that the conditions had changed over the past 25+ years which warranted updating the minimum acceptance standards. A final copy of the standards will be forwarded to the Council when they are accepted by the Planning Board.

Very truly yours,

Robert W. Healy
City Manager
