David Clem Chairman
Ordinance Committee
Cambridge City Council

March 28, 1977

Dear Councillor Clem:

In reviewing the City Ordinances as published in 1943 as compared to the new modifications of the City Ordinances, I find the only change to be the elimination of the word "hay" in Chapter 37 Section 2. The weighing of hay in these days in the City of Cambridge is non-existent.

I see no other changes in the revised version that I can suggest any additions or deletions. I feel that your revised edition of the ordinances are sufficient for the weights and Measures Dept. of the City of Cambridge.

Truly yours,

Robert K. Laffin
Sealer of Weights and Measures
