CABLE ADDRESS
FOSTRUSS, BOSTON.

Boston, May 24 1887

Dear General.

There is a petition before the committee on Roads & B.
for the acceptance of Fairmont St, I understand that all the
abutters with a single exception unite in the petition, that the street is
graded, but the land of this abutter projects into the street somewhat.

If anything favorable can be done for the petitioners I wish
that it might be, as they are quite desirous of securing relief and the
street should be an accepted street if possible. There is also
a petition for a sidewalk on Pearl St. by Mr. Hopkins in front of
his house, in this case the edge stone is set and it is a question
of the brick only. I think that cases like this should receive our
favorable action

Very truly yours
Joseph A. Ball.
