To the Honorable, the City Council:

In response to Awaiting Report #00-15 regarding a report on exterior lighting issues outlined in correspondence from Mike Hansen, please be advised of the following:

A citizen advisory committee on Climate Protection has recently been appointed, as a part of an international effort to reduce greenhouse gas emissions. The charge to this committee is to develop a plan to reduce these emissions that will include actions for municipal government, businesses, institutions and citizens. Mr. Hansen's recommendations on exterior lighting have been referred to the Climate Protection Task Force for its review and recommendations. I will forward the City Council its recommendations, when received.

Very truly yours,
