Cambridge, 02138

To the ~~mayor~~ and
city council -

Has any one of you
bothered to go and see
what the people at the
Garden St. apartments -
nos 239, etc. are
suffering?

lung disease is
invariably thanks to your
negligence.

You have dumped
a horrible mountain of
dust. There is no way
of describing what the

murders are suffering.
There will be lung
diseases and deaths
in no time.

Go in a body
and have a look.

Ask yourselves how you
would like to inhale
what is blown into
the apartments.

You are not at
all worthy of your
office.

Go and look.

Yours. Donald Speman

P.S. You could you allow
this fatal hazard?
