FROM: Robert K. Patterson
Senior Construction Engineer 

RE: Walden Street Bridge
Council Order # 35, 17 December 1990

DATE: 21 December 1990

The work that was recently performed on the bridge by the State Department of Public Works consisted of gutter line repairs on the south bound direction of the roadway.

The State Engineer for the completed repair work was Mr. Phil Yee of the MDPW. Further work on the bridge will be under the supervision of State Engineer Mr. James Murphy. The consultants for the State are Weidlinger Associates of Brattle Street in Cambridge.

Mr. Murphy has stated that the Walden Street Bridge project is *not* on the State spending list, and therefore long range plans and scope of work are not known at this time. I will be in touch with State Representative Charles F. Flaherty to request that the bridge be added to the spending list.

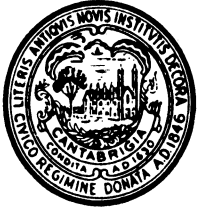

Mr. Murphy will coordinate information and update George Jussaume on a monthly basis regarding long range planning as it becomes available. In turn, I will make a monthly report to you of all information received pertaining to this project.

c: William P. Ryan, Commissioner of Public Works
George Jussaume, Construction Engineer
