Re: Putting up traffic signs in the vicinity of Miller
River Apartments

I am requesting that the Cambridge City Council look into the possibility of putting up signs on the corner of Cambridge and Lambert Street and also Cambridge and Cardinal Medeiros Way with the following message for motorists: "Senior crossing reduce speed." Although, there is a pedestrian light already located in front of the apartments, this does not solve all of the problem. Many times senior citizens are frightened by a car which does not slow down and as result feel uneasy about crossing the street. By putting up the signs, more senior citizens will take advantage of the outdoors, the Health Center and other activities.

Re: Citizenship

I would like to ask the City Council to look into the possibility of offering classes in the evening, at the High School for legal aliens, who would like to study, to take the exam to become an American Citizen.

These classes can be effective in helping those who do not read and write English and those who do not want to travel to in the evening to Lowell or Boston.

Subject: Requesting school crossing signs at the Harrington
Grammar School

I am requesting school crossing signs at the corner of Willow
Street and Cambridge Street also at Berkshire Street and
Cambridge Street.

It is of utmost importance that signs be placed at these
locations for the purpose of warning motorists that they are
approaching a zone where many children cross. Although there
are crossing lights, the welfare of children warrants more
than just lights. Signs at these locations can reduce
injuries or deaths.

Comm. from Anthony D. Pini, requesting the Council to look into the following:- placement of signs in the vicinity of the Miller River Apt's.; classes for persons to become US citizens & school crossing signs at the Harrington School.

In City Council,
