Peabody School Science Team Takes State Silver

The Peabody School Science Team participated in the Massachusetts State Science Olympiad held at MIT on Saturday, March 26, 1994. Team members were superb both individually and collectively. All students clearly understood and manifested the true meaning of team spirit. Students were invested and dedicated to science learning staying beyond the school day and extending their learning beyond the curriculum. These twenty 7th and 8th grade students were guided by the expert tutelage and commitment of Peabody School Science Teacher, Kathy Brown and student teacher from Lesley College, Spiros Koyanis. Both parents and staff were extremely supportive of these young people.

The team captured four Gold Medals, two Silver Medals and six Bronze Medals. Team members are Kyle Baxter, Laurent Charlin, Thareeya Deasakorn, Joshua Denault, Ian Ganley, Paul Gately, Justin Grady, Drew Hannon, Jason Higgins, Pauline Kim, Malik McMullin, Lindsey Payson, Cory Photopoulos, Eric Rowinsky, Charbel Salameh, Therese Salameh, Samia Salameh, Filippo Sargiacomo and Takahumi Yamada.

This annual competition was comprised of nineteen separate events. Some events included in the Olympiad were Aerodynamics, Bridge Building, Earth Science Processes, Egg Drop, Keep the Heat, Mission Possible, Mousetrap Vehicles, Name That Organism, Nature Quest, Picture This, Minerals and Fossils, Science Crimebusters, Simple Machines, Trajectory, What Are You Trying to Tell Me, and Write It/Do It.

The winners of the State Science Olympiad compete at the national finals in Tucson, Arizona. The Science Team from Cambridge Rindge and Latin School won first place in the state high school science competition and will go to the finals in Arizona this year. Ellen M. Varella, Acting Peabody School Principal, says that Peabody students' accomplishments demonstrate true Peabody Pride and with this experience behind them they will be prepared to go to the national finals next year.
