

We the undersigned residents of North Cambridge are demanding a clean up of this community. The Russell field, Clifton St., Jackson St., Clay St. and Dudley St. area are under threat of harrasement, intimidation and deliberate destruction of person, personal and city property. A wandering pack of teenagers roam the streets from dark to two or three in the morning terrorizing the neighborhood.

Racing cars with no regard for traffic and stop signs are a threat to our young children. Our being is not safe. Our property is the object of wanton and deliberate destruction. Beer bottles have been thrown on porches, causing breaking and scattering glass. Beer bottles are put under tires of cars and streets are littered with broken glass and debris. Windows have been smashed, eggs and tomatoes thrown at houses, and it is common in the mornings to find empty beer cans and bottles on ones lawn or front yeard. One cannot walk the streets day or night in safety.

North Cambridge is fast becoming a ghetto-this must be stopped. Owner occupied homes are diminishing and absentee landlords are increasing at an alarming rate. This area is ripe for an avoidable tragedy, but we must have action now. This area is on the road to becoming another Roxbury and must be stopped. We ask for concrete action NOW!

The elderly, the law abiding citizen, the taxpayer, community oriented people need help to stop this deterioration of this community. STOP IT NOW.
