

CITY OF CAMBRIDGE

INTEROFFICE CORRESPONDENCE

To : Mr. Robert W. Healy
City Manager

Date : January 19, 1982

From : Conrad C. Fagone, Commissioner *C. Fagone* **Reference**
Public Works Department

Subject : Council Order #2 - December 14, 1981
Councillor Vellucci
Re: Dump

This Department has met with the MBTA on numerous occasions in regard to their uses and filling of the former Cambridge city dump.

The elevations the MBTA is filling to are the adjusted approved grades this Department approved at the start of construction. However, please be advised there are presently 3 high stock piles of materials: 1) near the cinema, 2) behind Briston Arms, and 3) near St. Peter's Field, which will not be part of the final grades.

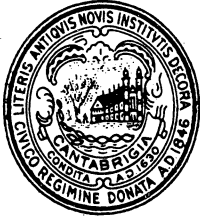

Two of the stock piles will be relocated to fill tunnel material where equipment trucks are stored now. This grading cannot be done until the tunnel construction is completed. The storage pile placed near St. Peter's Field is surplus materials that the landscape consultant requested three years ago be stockpiled for future grading of St. Peter's Field.

In addition, this Department has engaged the services of an engineering firm to work with our landscaping consultants, and review all of the MBTA's work and develop the final recreation plans. The cost of the engineering work is included in the city's MBTA agreement. It is anticipated that preliminary plans will be available this spring for your review.

ROBERT W. HEALY
City Manager

January 25, 1982

To the Honorable, the City Council:

With respect to Awaiting Report Item No. 6 relative to a check of all grades at the former City Dump regarding the MBTA exceeding elevations agreed to in their negotiations with the City, enclosed please find copy of a report from Conrad C. Fagone, Commissioner of Public Works.

Very truly yours,

Robert W. Healy
City Manager
