The Cambridge City Council
Cambridge City Hall
Cambridge, Mass.

Dear Sirs:

We wish to advise everyone of our sincere concern for the school children of Cambridge. And also the elderly citizens, whom we have the occasion to assist.

We realize this years weather is a record breaker, but these conditions have been with us through every stern, for many years.

Children are supposed to be our most valuable commodity, but the conditions these youngsters have to overcome in order to arrive at their school safely, is an absolute disgrace. The public apathy of the homeowners, tenants and everyone responsible for snow removal is a flagrant disregard for their neighbors.

Just attempt to walk the route of a child coming from and going to school, especially the children traveling 3/4 of a mile. The bumps and the bruises they incur are one thing, but to witness children walking snowbanks on busy streets or on the streets themselves is a sad example set by the inconsiderations of all adults involved.

Maybe if the provisions of Chapter 17, sections 17-79, sub-sections A & B also sections 17-80 of the City Code of the City of Cambridge were enforced some of these problems would be rectified OR ARE WE WAITING FOR A SERIOUS ACCIDENT OR A DEATH TO OCCUR, before we take care of these hazards.

The children, elderly and all pedestrians of this city deserve as much consideration as the cars, IF NOT MORE.

Sincerely,

Cambridge Traffic Supervisors
Association
