

CITY OF CAMBRIDGE
INTEROFFICE CORRESPONDENCE

To Alfred Vellucci
Mayor of Cambridge

Date November 1, 1976

From Robert P. Wheatly

Reference Council on Aging

Subject "Five Portraits:" - a slide/sound
show of senior citizens in Cambridge

Mr. Charles Adler, whose portraits of seniors you saw displayed during Golden Age Week, has also produced a thirty-minute slide/sound show entitled "Five Portraits a look at senior citizens in Cambridge." This project was made possible through a Cambridge Arts Council grant (competitively won by Mr. Adler) and the Cambridge Council on Aging. We are quite proud of the excellent quality of this production and wish to make it available for showing to the Cambridge community at large through the many organizations, clubs and church groups.

It has been suggested that the first showing might be made to the City Council at one of its regular weekly meetings. I can guaranty the quality of the production and the interest it will generate. I am writing now to let you know of the existence of this slide/sound show and to seek your assistance in scheduling it for showing to the City Council on any Monday night from this date forward.
