To The Honorable, The City Council:

In response to Awaiting Report Item No. 39, regarding the feasibility of installing a cement sidewalk on the Rindgefield Street side of 12 Hollis Street, Public Works Commissioner Ralph E. Dunphy reports the following:

It is feasible to put a cement sidewalk at this location. The present sidewalk is in need of very minor repairs which have been completed. DPW's evaluation did not reveal any safety or pedestrian hazards.

The installation of concrete sidewalks is being deferred for future evaluation of future sidewalk programs. DPW will also be in contact with the property owner to discuss/coordinate the needed repairs to the concrete wall on private property and abutting the rear edge of the sidewalk.

Very truly yours,

Robert W. Healy
City Manager
