CITY OF CAMBRIDGE, MASSACHUSETTS

COMMUNITY DEVELOPMENT DEPARTMENT

CITY HALL ANNEX, 57 INMAN STREET, CAMBRIDGE 02139 876-6800, X355

NOTICE OF MEETING

WHAT: Porter Square Task Force

WHEN: 7:30 p.m., Thursday, May 26, 1977

WHERE: Fellowship Hall, St. James Episcopal Church
1991 Massachusetts Avenue, Cambridge

SUBJECT: Review and Discussion of Porter Square MBTA Station
Schematic Design

The deep bore station for Porter Square is fast approaching the final design stages. The MBTA and its design consultant, Cambridge Seven Associates, would therefore like to review and discuss with the general public the results of the schematic design phase at the project. As you recall, preliminary data and studies necessitated a major change to the deep station approach concurred in at our last meeting in February. Now, the architects have evolved a working design for this deep station and its surface components which they would like to discuss with the Porter Square public. Review of earlier schemes resulted in helpful advice to the architects; hopefully this task force meeting will do the same. Therefore, everyone interested in the future of Porter Square and its new subway station is heartily encouraged to attend this meeting, review the plans, see slides of a model of how the station might look and tell the MBTA what you think of the proposed station. Hope to see you there!

For further information call Chris Dame 876-6800 ext. 355.

Please add this meeting to the City Council
schedule of meetings.
