Dear Cambridge City Councillors:

I am Vice President of the Central Square Business Association, an active member of the Central Square Committee since its inception, and am the former president of SEA Consultants Inc.

Working on the Central Square Project under the benign guidance of Rich Rossi and Susan Schlesinger has been a distinct pleasure. The cooperation and mutual respect shown by the Community Development staff, members of the Central Square Neighborhood Coalition and the members of the Central Square Business Association has been both gratifying and quite productive.

This project has the support of a broad range of Cantabridgians and will likely produce a wonderful new environment in Central Square. It deserves your support.

Very truly yours,

Arnold B. Goldstein
