Dear Sir:

I am writing to ask you where I am going to go for services/employment if Governor Weld puts a stop to our career center here on Green Street, Cambridge, MA? If Governor Weld has his way, we will be charged for employment services that many of us who are unemployed don't have, whereas, we can get this kind of service for free on Green Street, Cambridge from the Department of Employment And Training. Governor Weld's idea of this does not make sense or purpose and should not make a even more hardship on us who are seeking all the help we can get to get a job that will not only contribute to our families wellbeing but help our community as well.

I am asking for your help to help put a stop to this, not only for myself, but for others who like myself right here in Cambridge who need the help of The Department of Employment And Training to find a job without having to pay for this kind of service. Have people write to their State Representatives to make their complaint on this important issue about what Governor Weld has in mind to do away with the Department of Employment And Training's free service to those that need it to having people who cannot afford to pay for these kinds of services.

Thanking you for your help in this matter of great importance and hoping that you will give this matter your divine attention and consideration. I remain-

Sincerely,

Carolyn A. Wedge
