

thank you for placing the writing I gave at the entrance to the council chamber.

I had intended certain things to happen but since it was the first time I had done anything like that I didn't communicate my thoughts well at all.

What I wanted to do was place before your consideration the possibility that you would place the thoughts I had written, somewhere near the entrance to the council chamber, in a permanent way, so they could be seen and read easily.

I did not attend the council meeting because I did not want to influence your decision in any way.

I also wanted to symbolize in two ways that Truth and Knowledge are not owned by anybody and are available to anybody if they but seek them through the effort of Study and Thought. And it is by obtaining Truth and Knowledge that Fulfillment may be achieved. One way I wanted this non-ownership of Knowledge and Truth symbolized is by not being there in order to just let the ideas be there. The other way of symbolization is by requesting that my name not be on the writing as an author. I failed to clearly state this second request.

Also a little time has giving me the insight to slightly change the last part from "Freedom brings Happiness and Happiness brings Life."

to

"Freedom allows the development of True Knowledge, Knowledge allows the opportunity of Happiness and then it is Happiness that gives birth

to Life"

The reason I think this request of placing these ideas within public view is important is that the majority of humanity has been cursed with being identified with labels that suggest that they are inferior. The fact is there is no such thing in creation as true inferiority because nothing could have come into existence unless it had the Power of Infinite Manifestation, which means unless it had the Power to come forth amidst all the amount of numerologically mind boggling elements of existence so much so that The Creator deemed one worthy of Eternal Manifestation. So how could anything or anyone in actuality be Inferior ?. On the material level some in relation to others may seem inferior but all have free access to the infinite elemental raw material source through Thought and Knowledge to evolve into a complete state of Fulfillment. And so this writing hopes to reveal that, to all people in the hope that one day we will live in a Paradise of Divine Populations.

And so having made my apologies and explanation as best I could I will await your decision upon the request and writing that follows without word here-to-fore.

Communications / 11/ 17/ 98 Peter Valentine, 37 Brookline St. request the following writing be placed at the entrance to the Council Chamber in a permanent way so that it may be easily read and that there be no reference to the name of its writer.

True Order is achieved by Knowledge.

By People possessing and using Knowledge.

They Cooperate with each other without the need for being oppressed into cooperation.

Inferior systems of order promote concepts of superiority / inferiority / weakness / domination / slavery / slave controller.

Thus you have concepts of royalty (superior / inferior), tyranny (weakness / strength), caste societies (slave-servants , slave controllers), fraud free societies (subservient cowards, master psychological enforcer controllers).

In truly free societies, members experience true happiness which comes from knowledge of the fullness within and the fullness beyond within. People cooperate in respect of the Laws of Life. They respect each other's rights and enjoy each other's abilities.

Water is contained by land, land is nourished by water. What both contain sustain each personally and and nourish each other.

Forced cooperation is based on non awareness of knowledge, which is the cause of fear, hate, anger, and diabolical delusions that lead to elements tormenting one another.

Knowledge brings Power. Power brings True Freedom.

Truth and Knowledge exist in and of themselves, they have no authors only Seekers.

Seek and you shall find that the Truth shall set you Free.

All Knowledge and worthwhile philosophy can be encapsulated in one word

meaning

These words are the essence of Love.

There is no greater form of Love for without these ideas Life has no guiding path to build upon.

Life without Happiness is death.

Freedom allows the development of True Knowledge, Knowledge allows the opportunity of Happiness and then it is Happiness that gives birth

to Life
