Cambridge, Massachusetts 02138

8 May 1970

To The City Council:

The issues are national, but, as you have recognized, they impinge on our city. In the light of the interrelated tragedies in Southeast Asia, in race relations, and on American campuses, we'd like to record for your reference our opposition to expansion of the war, sympathy for the active idealism of young people, and commitment to continuing efforts for racial justice.

Sincerely,

Joan Nordell
