

Cambridge Feb. 16. 1885.

To The Honorable City Council of the City of Cambridge.

The undersigned, citizens and taxpayers of the City of Cambridge, in view of the present large floating debt, and the many and large expenditures of money which must be made this year and in the near future, including our proportionate part of carrying our sewerage to deep water, extension of water works and new High School building, would respectfully remonstrate against taking any steps at present toward building the proposed new bridge to Boston.

(over)

As a resident of Ward III, in view of the
apprehended approach of the Asiatic cholera
I think the sewerage should first be cared
for before building a new bridge
