City Council
City Hall
Cambridge, Mass.

Dear members of the Cambridge City Council:

I would like to thank you for your recent vote in support of the Sanctuary Movement. With more such courageous moves on the part of local and state governments perhaps this administration will see the light in regards to the human rights issue of sanctuary. The time has come for all of us to confront the kind of people we have become under the direction of the present administration. Thank you again for your courage and your humanity.

With every good wish,

Dianne Beeff
