

**PETITION
FOR A NEW CITYWIDE SENIOR CENTER IN CAMBRIDGE**

We, the undersigned, strongly urge the Cambridge City Council and City Administration to begin planning this year for a citywide multi-service senior center for Cambridge as recommended by the Board of Directors of the Cambridge Council on Aging.

Whereas, the City presently operates the North Cambridge Senior Center which is much too small to accomodate many of the needs of senior citizens in Cambridge; and whereas senior citizens need and want a center that offers many programs and services from a centralized and accessible location; and whereas, programs are more cost effective and efficient if provided centrally; be it therefore resolved: we recommend that the City plan a citywide center which meets minimum standards of the National Council on Aging of at least 20,000 square feet as a resource for all of the 15,000 senior citizens in Cambridge; and that a senior center be put as a line item in next year's City budget.

**PETITION
FOR A NEW CITYWIDE SENIOR CENTER IN CAMBRIDGE**

We, the undersigned, strongly urge the Cambridge City Council and City Administration to begin planning this year for a citywide multi-service senior center for Cambridge as recommended by the Board of Directors of the Cambridge Council on Aging.

Whereas, the City presently operates the North Cambridge Senior Center which is much too small to accomodate many of the needs of senior citizens in Cambridge; and whereas senior citizens need and want a center that offers many programs and services from a centralized and accessible location; and whereas, programs are more cost effective and efficient if provided centrally; be it therefore resolved: we recommend that the City plan a citywide center which meets minimum standards of the National Council on Aging of at least 20,000 square feet as a resource for all of the 15,000 senior citizens in Cambridge; and that a senior center be put as a line item in next year's City budget.

**PETITION
FOR A NEW CITYWIDE SENIOR CENTER IN CAMBRIDGE**

We, the undersigned, strongly urge the Cambridge City Council and City Administration to begin planning this year for a citywide multi-service senior center for Cambridge as recommended by the Board of Directors of the Cambridge Council on Aging.

Whereas, the City presently operates the North Cambridge Senior Center which is much too small to accomodate many of the needs of senior citizens in Cambridge; and whereas senior citizens need and want a center that offers many programs and services from a centralized and accessible location; and whereas, programs are more cost effective and efficient if provided centrally; be it therefore resolved: we recommend that the City plan a citywide center which meets minimum standards of the National Council on Aging of at least 20,000 square feet as a resource for all of the 15,000 senior citizens in Cambridge; and that a senior center be put as a line item in next year's City budget.

**PETITION
FOR A NEW CITYWIDE SENIOR CENTER IN CAMBRIDGE**

We, the undersigned, strongly urge the Cambridge City Council and City Administration to begin planning this year for a citywide multi-service senior center for Cambridge as recommended by the Board of Directors of the Cambridge Council on Aging.

Whereas, the City presently operates the North Cambridge Senior Center which is much too small to accomodate many of the needs of senior citizens in Cambridge; and whereas senior citizens need and want a center that offers many programs and services from a centralized and accessible location; and whereas, programs are more cost effective and efficient if provided centrally; be it therefore resolved: we recommend that the City plan a citywide center which meets minimum standards of the National Council on Aging of at least 20,000 square feet as a resource for all of the 15,000 senior citizens in Cambridge; and that a senior center be put as a line item in next year's City budget.

IN CITY COUNCIL

VICE MAYOR REEVES
COUNCILLOR CYR
COUNCILLOR RUSSELL

July 30, 1990

- WHEREAS: The people of Cambridge hold their elder citizens in high regard, and share a concern for their comfort, safety, and quality of life; and
- WHEREAS: The Cambridge Council On Aging has provided the City Council with the preliminary results of a survey of the needs of Cambridge's elder citizens; and
- WHEREAS: These results indicate that the City of Cambridge is serving only twenty percent of its elderly population at a few disparate sites throughout the City; and
- WHEREAS: The Council on Aging, the Cambridge Committee of Elders, and various senior citizen advocates throughout the City have voiced their strong support for the establishment of a citywide senior citizens center which will serve as a multi-service center to provide for the needs of Cambridge elder citizens; and
- WHEREAS: The recent study of Cambridge's future housing needs—the Goetz Study—indicates the population of Cambridge is a rapidly aging one and that the future needs of Cambridge's elder citizens cannot be underestimated. Based upon these, and other considerations; now therefore be it
- RESOLVED: That the Cambridge City Council request that the City Manager immediately move to investigate suitable sites with the potential for purchase and construction of a citywide senior citizens center, and that he use all resources at his disposal to conduct a senior citizens center needs assessment, which will help determine programming and thus assist in the selection of the appropriate location; and be it further
- RESOLVED: That the desired facility is a spacious one, and has sufficient room to accommodate both large and small group activities; that particular attention be paid to the availability of sunlit spaces, and to landscaping which will provide for outdoor activities; and be it further
- RESOLVED: That the City Manager also assess the City's capability to provide transportation—such as a Senior Shuttle—from various sites throughout Cambridge to the proposed Center.

In City Council July 30, 1990.

Adopted by the affirmative vote of nine members.
