

Street Commissioner's Office,

CITY HALL,

M. B. COLE, Street Commissioner.

Norwich, Conn., Nov 17 1885

A. F. Putnam Esq

Dear Sir

Yours of Nov 8
came to hand.

In regard to the information
you desire in regard to street sweeping
would say we have one of the
Edson machines as you described
When we bought it it was intended
for one horse. but as it was too
heavy for any single horse to work
I had it changed so as to work
two horses and since that time
it has been found to do all it is
intended for and gives good sat-
isfaction In New London they
have one of the Abbott & Downing
make of Concord N. H. which does
not give satisfaction at all

Mr. B. Cole
