Councillor Walsh

April 22, 1991

ORDERED: That the City Manager request the interim Public Works Coordinator to arrange that an examination be made of the sewer line extending from the sidewalk to the residence at 381 Harvard Street. Presently there is a constant backup of water into the cellar and, as part of the effort to solve the problem, a request was received to investigate the possibility that tree roots may be a cause of the problem. Further, that the City Manager report back to the Council on this matter within one week, if at all possible.
